Key features of this product

Type: Undertakings for Collective Investments in Transferable Securities (UCITS)

Duration: This Sub-Fund was established for a term of 99 years.

Objectives:

The investment objective of SOLYS – SG29 MAS Funds – LOIM Tail Risk (the “Sub-Fund”) is to seek capital appreciation over the long term and particularly in periods of market stress by being exposed to tail and carry strategies whose performance are linked to a wide investment universe across all regions (collectively the “Strategies”).

The Sub-Fund is actively managed and is not managed in line with any Benchmark Index.

The Sub-Fund seeks to achieve its investment objective by providing an exposure to a basket of various single quantitative systematic Strategies focusing on benefiting from market dislocations and stress. The Sub-Fund aims to minimize the traditional high cost of carry of seeking to invest in tail strategies by having an approach to identify optimal risk reward and looking to increase and decrease exposures as a function of this risk reward.

The Sub-Fund aims to use leveraged long and short positions to generate consistent returns, irrespective of macro trends but it is the intention of the Sub-Fund to perform better in periods of market downturn. The Sub-Fund will implement its investment strategy by selecting (i) Strategies that aim to profit in periods of market stress (“Tail Strategies”) and (ii) Strategies that aim to capture market inefficiencies across all markets (“Carry Strategies”).

The Sub-Fund seeks to find the best opportunities within a wide investment universe across asset classes, including without limitation, equity, foreign exchange, commodity, fixed income, as well as across all regions. The Sub-Fund will mainly be exposed to Strategies that systematically take exposure to the above-described investment universe through futures and/or options on equity indices, dividend futures, volatility futures, interest rates’ swaps and swaptions, government bond futures, equities, currency forwards, or financial indices.

The Sub-Fund will obtain its exposure either by:

- investing directly in equities, listed or OTC options and/or listed financial futures and/or,
- getting exposure to part or all of the Strategies through (i) the use of structured notes such as EMTN (Euro Medium Term Note), and/or,- (ii) OTC Derivatives such as swaptions on US and EU interest rate curves, and/or interest rate swaps on US and EU interest rate curves, and/or currency forwards, and/or total return swaps (TRS) and/or, fully-funded or unfunded swaps.

In addition, when getting exposure through one or several OTC swap transactions, the Sub-Fund may invest in a basket of highly liquid securities (the “Basket of Securities”) and :

- enter into OTC swap transactions to obtain exposure to Strategies in addition to that of the Basket of Securities and/or,
- exchange, by way of OTC swap transactions, the value of such Basket of Securities against the value of the Strategies.

The Basket of Securities may be composed of:

- for up to 110% of the Sub-Fund’s net assets, international equities included in a major stock index and/or,
- for up to 110% of the Sub-Fund’s net assets, OECD government bonds with a rating of at least BBB- (Standard & Poors) (or an equivalent rating from another leading rating agency).

The share currency is the Dollar (USD).

Invested financial instruments: International Equities, OECD Government Bonds, OTC Derivatives such as total return swaps (TRS), fully-funded or unfunded swaps, EMTN (Euro Medium Term Note), futures and/or options on equity indices, dividend futures, volatility futures, interest rates’ swaps and swaptions, government bond futures, currency forwards, or financial indices (including commodity indices through the use of financial derivative instruments).

Dividend policy: All Classes of Shares are capitalization Shares.

Net Asset Value: Is calculated daily provided that the relevant stock exchanges are open for trading and orders can be covered. Please refer to the prospectus for the exact business days on which the NAV will be calculated.

Subscriptions and Redemptions: One Business Day before any Dealing Day (as defined in the Prospectus) at 12:00 Luxembourg time at the latest.

Eligible investors: This Share Class is available to institutional investors within the meaning of Article 174 2c) of Luxembourg law of 17 December 2010 on undertakings for collective investment, as may be amended, and except for U.S. Persons.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within less than 1 year.

Depositary: Société Générale Luxembourg S.A.

The Sub-Fund's net asset value is available at: <https://www.fundsquare.net>

What are the risks and potential rewards?

Synthetic Risk Indicator:

This risk indicator assumes that you stay invested for at least 1 year. The actual risk incurred may be quite different if you leave the Sub-Fund prematurely, and this may adversely affect your return. This risk indicator measures this product's level of risk relative to that of other investment products. It reflects the probability that adverse market movements may cause this financial product to suffer a loss, or that we may not be able to pay you.

We have given this product a low risk class rating of 2 out of 7. This means that it has a low level potential for loss, and that Management Company may not be able to fully redeem your investment if market conditions deteriorate. This may affect Management Company's ability to pay you.

The Sub-Fund may also be exposed to the following risks which are not covered by the risk indicator:

Counterparty risk: This is the risk that a counterparty to an over-the-counter transaction with the Sub-Fund may be unable to honor its contractual obligations.

Credit risk: Deterioration in the credit quality of an issuer.

As this product offers no protection against market fluctuations, you could lose all or part of your investment.

Performance scenarios

The figures shown below account for all the costs that are inherent to the financial product, but not necessarily all of the fees you may owe to your advisor or distributor. They also do not take into account your personal tax situation, which may also affect the amounts you receive.

Your return from this Sub-Fund depends on the future performance of financial markets. Future market movements are random and cannot be accurately predicted. The unfavorable, intermediate and favorable scenarios presented below are examples based respectively on the Sub-Fund's worst, median and best returns and on the average performance of the appropriate benchmark index over the last 10 years.

Markets may behave quite differently in the future. The stressed scenario shows your hypothetical return under extreme market conditions.

Recommended holding period: 1 year
Investment: USD 10,000

Scenarios		If you leave after: 1 year
Minimum return	No minimum return is guaranteed. You could lose some or all of your investment.	
Stressed scenario	Your hypothetical return net of costs	7 400 USD
	Average return	-26.00%
Unfavorable scenario	Your hypothetical return net of costs	9 920 USD
	Average return	-0.90%
Intermediate scenario	Your hypothetical return net of costs	10 300 USD
	Average return	3.00%
Favorable scenario	Your hypothetical return net of costs	18 520 USD
	Average return	85.20%

The unfavorable scenario occurred for an investment in the benchmark between May 2018 and May 2019.

The moderate scenario occurred for an investment in the benchmark between October 2020 and October 2021.

The favorable scenario occurred for an investment in the benchmark between December 2019 and December 2020.

What happens if the Sub-Fund sponsor is unable to redeem my shares?

If the management company that manages your Sub-Fund's assets defaults, this will have no effect on your investment. Your Sub-Fund depositary is responsible for the custody and safekeeping of your Sub-Fund's assets.

How much will this investment cost me?

We may share the costs with the person who sells you the product to cover the services they provide to you. That person will inform you of the amount.

COSTS OVER A 1-YEAR PERIOD

The tables below show the amounts taken from your investment to cover the various costs. These amounts depend on the amount you invest and on how long you hold your investment. The amounts shown here are examples based on a hypothetical investment amount and different possible investment periods.

We have assumed the following:

- that in the first year you would get back the amount you invested (0% annual return);
- that for the other holding periods the product will perform as shown in the intermediate scenario;
- USD 10,000 are invested.

Investment: USD 10,000	If you leave after:
	1 year
Total costs	46 USD
Cost in % (*)	0.46%

(*) It shows how much costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 3.46% before costs are deducted and 3.00% after costs are deducted.

COSTS BREAKDOWN

One off entry and exit charges	The impact of annual costs if you leave after just 1 year. Investment: USD 10,000	
Entry charge	0.00% of your investment. This is the maximum amount you will pay and you may pay less.	0 USD
Exit charge	0.00% of your investment before it is paid to you. This is the maximum amount you will pay and you may pay less.	0 USD
Charges taken from the Sub-Fund annually		
Management fees and other administrative and operating expenses	0.46% of the value of your investment per annum. This estimate is based on the actual costs incurred during the previous year.	46 USD
Transaction costs	0.00% of the value of your investment per annum. This is an estimate of the costs we incur when we buy and sell the investments that underlie the product. The actual amount depends on the volume of securities we buy or sell.	0 USD
Ancillary charges taken from the Sub-Fund under specified conditions		
Performance-related fees	The Performance Fee amounts to a percentage of the relevant Share Class performance over the Reference Period in excess of the Hurdle Rate over the Reference Period (as defined into the prospectus). The percentage for the calculation of the Performance Fee is 20% that will apply on the excess return between of share class performance and the "Hurdle Rate" (SOFR).	0 USD

How long do I have to hold my investment and can I withdraw my money early?

RECOMMENDED INVESTMENT PERIOD: 1 YEAR

This Sub-Fund may not be appropriate for investors who plan to withdraw their money within less than 1 year. The recommended holding period is intended to minimize the risk of capital loss on your investment if redeemed after this period. It does not however constitute a guarantee. You may however redeem your investment at any time. Your Sub-Fund charges no redemption fee.

Who do I contact if I have a question or complaint?

You may address any questions or complaints directly to: Société Générale Investment Solutions (France), 29 boulevard Haussmann, 75009 Paris, or via its website at <https://www.investmentsolutions.societegenerale.fr/fr/contact/>
